ABOUT ME

Full Stack Developer. Experience working on NodeJs, React, Redux, SQL, postgresSQL, mongoDb, Mongoose, among other technologies in the industry.

I am an enthusiastic young man determined to learn and acquire new experiences, with adaptability, problem solving and teamwork.

I seek to develop myself professionally within a team or individually, giving the best of me, with very good predisposition and attitude towards the responsibilities assigned to me.

WORK EXPERIENCE

Full Stack Teaching Assistant

Henry bootcamp   oct. 10 - nov. 28 | 2022

- Coordinate a group of students to achieve integration into the study team (20 - 30 students).
- Assist in the resolution of exercises and promote group collaboration (Pair Programming).
- Propose ideas for the improvement of Bootcamp processes.
- Achievements: We formed a close-knit group that supported each other whenever someone had a problem.
